

The AccurioPress C2070 series— performance meets versatility.

As a graphics professional, your client looks to you to get their vision to market. Konica Minolta's new AccurioPress C2070 series helps you do that and more, setting new standards for superior performance and unsurpassed value. We've built this series with one goal in mind: increase your output while reducing your costs. And we've done it by combining digital color quality that rivals offset prints with advanced workflow and color management tools that fine-tune accuracy and keep your costs down.

Produce High Quality Prints, Consistently

Using Konica Minolta technology for color consistency, high duty cycle, a reliable paper feeding system and accurate front-to-back registration, you'll wow your clients with stunning quality prints time and time again.

Expand Your Finishing— and Business—Options

A wide variety of inline finishers creates output that's ready to box without any additional work needed—broadening the scope of what you can offer your clients.

Superior High-Speed Scanning and Solution Integration

A new high-speed duplex scanner is an option on the AccurioPress, and easily integrates into existing solutions with support for Open API/ISW.

Reliability You Can Trust

Purposely built to withstand rugged production demands, the AccurioPress comes with integrated software from leading graphic communication industry providers, IT solutions and more. And, as always, backed by the name you've come to trust: Konica Minolta.

Increase Your Efficiency

The AccurioPress produces high-quality jobs at high speeds, with simple setup and long-run image stability for better output and less waste. The inline finishing options get the job done right from the start.

Achieve Greater Impact

From envelopes to banners to thick paper including coated and synthetic, the AccurioPress C2070 series has superb media versatility and job handling. It opens new possibilities for your clients—and new opportunities for your business.

Bold, vivid color. Precision quality. In a word, amazing.

Great Color Consistency & Stability

The AccurioPress C2070 series provides superior color consistency and stability run after run. Inline sensing ensures long-run precision. Automatic density adjustment, improved position accuracy and enhanced front-to-back registration control combine to keep your output stable without the need for operator intervention. And real-time engine calibration is done inline to stabilize color values. What's more, our enhanced color feedback system measures both CMYK and RGB, safeguarding color purity and providing greater accuracy.

Brilliance that Surpasses Offset Printing

Konica Minolta's next-generation Simitri® HD² polymerized toner captures an expanded color gamut for superior accuracy. Deep blacks make colors pop off the page. Improved magenta makes reds more vivid. And enhanced electro-photographic properties make skin-tones more accurate and natural.

Outstanding Quality

Konica Minolta's unique Screen-Enhancing Active Digital (S.E.A.D. V) system combines highly accurate exposure controls, precision pixel placement and advanced screening to achieve resolution equivalent to 3,600 dpi.

Expertise You Can Trust

If you need help bringing your production facility to G7 status, Konica Minolta has a team of specialists ready to assist. From experts in color management, proofing quality control, prepress, plate making and print processes in offset as well as digital print, count on Konica Minolta to get you through the process.

We've set the standard in color. Now we're redefining media capability.

A Multitude of Media Choices

- Print on attention-getting paper stocks up to 350 gsm using our vacuum fed paper deck
- Produce optimized output on textured stocks
- Accurate front-to-back registration with skew correction is available using a semi-automated adjustment system

High-Speed Envelope Printing

A dedicated fusing unit for high-quality and high stability allows you to increase your capabilities and print envelopes, labels and more.

Large Capacity Banner Printing

The AccurioPress C2070 series let's you think big, with a large capacity banner feed tray that prints up to 29.5" and holds up to 1000 banner sheets. Print eye-catching tri-fold brochures, book jacket covers, posters and more. Want to think even bigger? Banners of up to 47" can be printed from the bypass tray.

Powerful finishing options that power your business.

Finishing Options

The AccurioPress C2070 series has a robust variety of finishing capabilities to meet your needs:

- Booklets**
(including high-quality full bleed, square folded varieties)
- Perfect Bound**
- Folding**
- GBC Punching and Binding**
- Stapling**
- Stacking**

A variety of print controllers to meet every need.

Konica Minolta's internal image controller was developed in-house for powerful, affordable color management.

- Job Centro functionality lets you manage the queue, edit pages, job tickets and much more
- Color Centro technology lets you edit color with visible adjustments on screen. You'll have all the color tools you need, including calibration, tone curve adjustment, an expandable library of spot colors and more
- Fiery and Creo image controller options give graphic professionals advanced color management and production benefits. Both deliver improved color performance and upgraded functions, including hot folders, advanced color profiling, spot color libraries and integration into third-party systems
